Solving the Giving Pledge Bottleneck Sean Davis,2021 This book highlights the historic inflection point we are in, both in terms of philanthropy in general, and specifically in financing the solutions to our largest and most urgent social and environmental problems. It covers the two movements that have recently had a dramatic influence on capitalism. First, wealthy millennials have been pressuring their bankers to invest their family portfolios in companies with high social and environmental impact (ESG ratings), triggering a wave where the wealth management industry, and now all public companies, are significantly adapting to the increasing demand for good. Second, The Giving Pledge triggered another wave, changing what success and the accumulation of wealth means. It has even begun to redefine the goal of capitalism as more than 200 billionaires have pledged to give half or more of their wealth away. This book also focuses on the bottleneck problem that The Giving Pledge has created, as it is very hard to give hundreds of billions away with measurable impact to nonprofits lacking detailed long-term plans to scale. Nonprofits have never had the luxury of having all the resources to invest in the planning, management training and systems needed to rapidly expand. Thus taking in very large gifts is very difficult, and almost impossible to justify. Large philanthropy can always be used for traditional capital campaigns and to fund endowments, yet The Giving Pledge signers are often looking for large visible impact beyond these traditional avenues. The result is a bottleneck which has grown as more billionaires pledge their funds away while their wealth continues to skyrocket and giving rates stay very small. Finally, this book covers the emergence of large giving vehicles, modelled after the private equity industry. They have sophisticated third-party managers focused on deploying funds and supporting management teams. It also covers the scaling of nonprofits in a significant way (Big Bets) as well as investing large philanthropy through for-profits as Program Related Investments (PRI) at scale. This book is of interest specifically to nonprofit and foundation leaders, as well as wealth managers, estate attorneys and other philanthropic advisors. It is also of interest to investors and corporate CEOs as they begin to access these large pools for philanthropic capital to increase their impact. This book is focused on providing those with the ability to make large philanthropic investments a path to scale their impact and increase their fulfillment and that of their family. It provides a step-by-step guide of how these approaches, especially PRI at scale, can actually solve the social and environmental challenges that have been seemingly hopeless. Sean Davis is the Founder and CEO of Merton Capital Partners. He started his career with J.P. Morgan in New York and then joined Advent International, a leader in international private equity, helping to develop its office in Brazil. Mr. Davis then joined Saratoga Partners in New York and was dedicated to leverage buyout opportunities and restructurings. He was recently the Development Director for The Salvation Army of Palm Beach County, where he was focused on creating a bold

growth plan to solve the problem that almost half the children in the County fail to read a third grade level. He was also responsible for managing their housing strategy. Mr. Davis graduated from The Edmund A. Walsh School of Foreign Service at Georgetown University and has an MBA from the London Business School where as a student he co-founded the LBS Private Equity Conference and The LBS Collier Institute of Private Equity. He is also an Adjunct Professor at Palm Beach Atlantic University's Masters in Global Development and an advisor to various nonprofits.

The Life You Can Save Peter Singer,2010 Argues that for the first time in history we're in a position to end extreme poverty throughout the world, both because of our unprecedented wealth and advances in technology, therefore we can no longer consider ourselves good people unless we give more to the poor. Reprint.

Reciting the Pledge, Yes Or No Reese Everett,2016 Do you have an opinion about the Pledge of Allegiance? What reasons can you give for your opinion? Sharing your opinion is more effective when you use facts and examples that support your position. It's also helpful to know what those who disagree with you think, and why. --page [4] cover.

The Pledge Chandra Sparks Taylor,2008-10-01 Raised in a strict household, sixteen-year-old Courtland Murphy never had a date. But that was before the guy of her every dream—basketball star Allen Benson—asked her out. She's gone from never-been-kissed to dating the hottest guy in school. And now her new boyfriend is pressuring her to prove she loves him—by having sex. But as a member of her community's Worth-the-Wait club, Courtland made a vow to stay a virgin. Now everyone—from friends to family to fellow club members—gives her different advice, from do it! to you made a pledge, girl! It would be so easy for Courtland to go all the way with Allen, but sometimes his charming personality leaves her wondering. Who knew being in love could be so confusing?

The Pledge of Allegiance to Freedom Brad Hennenfent,Bradmd,2022-07-18 Read The Pledge of Allegiance to Freedom out loud for preschool and kindergarten, and then let children learn to read it and memorize it as their first activities for freedom. The book is illustrated with black and white line art, which also serves as a coloring book. The book has large, crayon-sized, font. To have big FREEDOM, you need all the little freedoms. Set the moral foundation for freedom as early in life as possible for children. Memorizing and reciting The Pledge of Allegiance to Freedom as a daily devotion is suitable for children and adults, because not only should the people of the world Pledge Allegiance to the Flag of the USA that represents freedom, but We the People should pledge allegiance to freedom directly. Worldwide, under any flag, freedom is the ultimate goal. The Pledge of Allegiance to Freedom lends itself to a mnemonic series of gestures to memorize the words: Hands to heaven for free will from God. Point to the brain for free thought. Throw kisses from the mouth for free speech. Type in the air to indicate freedom of the press. Activities: 1) Read aloud 2) learn to read 3) invent a mnemonic series of gestures for each freedom 4) color with crayons and 5) memorize The Pledge of Allegiance to Freedom. Beautiful words lead to freedom.

Be thankful for all the good things freedom brings the world. Pre-school, kindergarten, early reading, and homeschooling should teach the joy of freedom. Freedom brings peace and the ability to pursue happiness. Do The Pledge of Allegiance to Freedom every day, on the 4th of July, and for the Independence Day of every country. Learn The Pledge of Allegiance to Freedom now, so you can teach the nuances of freedom as children get older. Raise children to understand that free markets and free speech go together to give us price transparency and product transparency. Free enterprise keeps raising the quality of life. Free trade began as trade between the states; however, free trade between countries must be free and fair trade for national security. Free trade works best when all governments promote freedom equally. Search for BradMD in quotes under books on Amazon to find all of Brad's books, including health books. BradMD (Brad Hennenfent, M.D.), a physician and economist (retired), believes in healthcare freedom, and free enterprise, so that good people can do great things. Dr. Hennenfent went to college at Northwestern University, medical school at the University of Illinois, and did his residency in Emergency Medicine at the University of Illinois Affiliated Hospitals Emergency Medicine Residency Program. Brad created the Alligator Etymologist to teach kids big words, and also invented the Giant Abacus with removeable beads as a way to display words, recipes, and other educational information. Brad grew up in a basketball family and advocates for 4-on-4 full court basketball, because mathematically, 4-on-4 full court is superior to 5-on-5 for fast breaks, dunks, alley oops, and the run and gun style of basketball most fans love. Dr. Hennenfent invented Treatment Scores, which combine the math of medical statistics, and the math of economics, to make medical treatments understandable for patients. I Pledge Allegiance Francis Bellamy,Bill Martin,Michael R. Sampson,Christopher Raschka,2002 Divides the Pledge of Allegiance into words and phrases in order to define its meaning.

The Pledge Jeffrey Owen Jones,Peter Meyer,2010-10-12 The cultural and political history of the Pledge of Allegiance, how it came to be, what it means to Americans, and why we have battled over it for generations For more than a century, reciting the Pledge of Allegiance has been a central part of the American Experience. And perhaps because of its ubiquity, this simple flag salute has served not only as a unifying ritual but also as a lightning rod for bitter controversy. Congress's 1954 decision to add under God to the Pledge has made it the focus of three U.S. Supreme Court cases and at least one other landmark appellate decision. The debate continues today, but along with it exists a widely held admiration and support for this simple affirmation of our shared patriotism. As Jeffrey Owen Jones and Peter Meyer show in their illuminating history, this brief salute to the flag has had an almost magical power to galvanize people's deepest feelings and beliefs about who we

are and ought to be as a nation. In that sense, the story of the Pledge of Allegiance is the story of America and the American people.

Pro Truth Gleb Tsipursky, Tim Ward, 2020-05-29 How can we turn back the tide of post-truth politics, fake news, and misinformation that is damaging our democracy? First, by empowering citizens to recognize and resist political lies and deceptions: Using cutting-edge neuroscience research, we show you the tricks post-truth politicians use to exploit our mental blindspots and cognitive biases. We then share with you strategies to protect yourself and others from these threats. Second, by addressing the damage caused by the spread of fake news on social media: We provide you with effective techniques for fighting digital misinformation. Third, by exerting pressure on politicians, media, and other public figures: Doing so involves creating new incentives for telling the truth, new penalties for lying, and new ways of communicating across the partisan divide. To put this plan into action requires the rise of a Pro-Truth Movement - a movement which has already begun, and is making a tangible impact. If you believe truth matters, and want to protect our democracy, please read this book, and join us. Dr. Gleb Tsipursky and Tim Ward have teamed up to help citizens learn to protect themselves from lies, and empower them to put truth back into politics.
